DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel Claims 6-9 and 20-23.

As the present claims have been elected without traverse, the non-elected claims have been cancelled.

Allowable Subject Matter

Claims 28-44 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art known to the Examiner is cited on the PTO 892 and IDS forms of record. None of the references anticipate or make obvious placing the substrate in a cooling room after the crystallization; cooling the crystalline semiconductor film by supplying a first cooling gas into the cooling room after the crystallizing; gettering the crystallization promoting material from the crystalline semiconductor film; and placing the substrate in the cooling room after the gettering; and cooling the crystalline semiconductor film by

supplying a second cooling gas into the cooling room after the getting. Therefore, the Claims are allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
